

Fishery Conservation and Management

§ 665.13

Pacific pelagic management unit species that were caught using longline gear.

[61 FR 34572, July 2, 1996]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 665.12, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and on GPO Access.

§ 665.13 Permits and fees.

(a) *Applicability.* The requirements for permits for specific Western Pacific fisheries are set forth in subparts C, D, E, F, and G of this part.

(b) *Validity.* Each permit is valid for fishing only in the specific fishery management areas identified on the permit.

(c) *Application.* (1) A Western Pacific Federal Fisheries Permit Application Form may be obtained from the NMFS PIRO to apply for a permit or permits to operate in any of the fisheries regulated under subparts C, D, E, F, and G of this part. The completed application must be submitted to PIRO. In no case shall PIRO accept an application that is not on the Western Pacific Federal Fisheries Application Form.

(2) A minimum of 15 days after the day PIRO receives a complete application should be allowed for processing a permit application for fisheries under subparts C, D, E, and F of this part. A minimum of 60 days after the day PIRO receives a complete application should be allowed for processing a permit application for fisheries under subpart J of this part. If an incomplete or improperly completed application is filed, the applicant will be sent a letter of notice of deficiency. If the applicant fails to correct the deficiency within 30 days following the date of the letter of notification of deficiency, the application will be considered abandoned.

(d) *Change in application information.* Any change in the permit application information or vessel documentation, submitted under paragraph (c) of this section, must be reported to PIRO in writing within 15 days of the change to avoid a delay in processing the permit application. A minimum of 10 days from the day the information is received by PIRO should be given for PIRO to record any change in information from the permit application sub-

mitted under paragraph (c) of this section. Failure to report such changes may result in a delay in processing an application, permit holders failing to receive important notifications, or sanctions pursuant to the Magnuson-Stevens Act at 16 U.S.C. § 1858(g) or 15 CFR part 904, subpart D.

(e) *Issuance.* After receiving a complete application, the Regional Administrator will issue a permit to an applicant who is eligible under §§ 665.21, 665.36, 665.41, 665.61, 665.601, or 665.8, or 665.602 as appropriate.

(f) *Fees.* (1) PIRO will not charge a fee for a permit issued under subpart D or F of this part, for a Ho'omalū Zone limited access permit, or for a Guam bottomfish permit issued under § 665.61.

(2) PIRO will charge a fee for each application for a Hawaii longline limited access permit, Mau Zone limited access permit, coral reef ecosystem special permit, or a American Samoa longline limited access permit (including permit transfers and renewals). The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook, for determining the administrative costs of each special product or service. The fee may not exceed such costs and is specified with each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude the issuance, transfer or renewal of a Hawaii longline limited access permit, Mau Zone limited access permit, coral reef ecosystem special permit, or an American Samoa longline limited access permit.

(g) *Expiration.* (1) Permits issued under subparts C, D, E, F, and G of this part are valid for the period specified on the permit unless transferred, revoked, suspended, or modified under 15 CFR part 904.

(2) Permits issued under subpart E of this part expire at 2400 local time on December 31.

(h) *Replacement.* Replacement permits may be issued, without charge, to replace lost or mutilated permits. An application for a replacement permit is not considered a new application.

(i) *Transfer.* An application for a permit transfer under §§ 665.21(h), 665.41(e), or 665.61(e), or for registration of a permit for use with a replacement vessel

under § 665.61(k), must be submitted to the PIRO as described in paragraph (c) of this section.

(j) *Alteration.* Any permit that has been altered, erased, or mutilated is invalid.

(k) *Display.* Any permit issued under this subpart, or a facsimile of the permit, must be on board the vessel at all times while the vessel is fishing for, taking, retaining, possessing, or landing management unit species shoreward of the outer boundary of the fishery management area. Any permit issued under this section must be displayed for inspection upon request of an authorized officer.

(l) *Sanctions.* Procedures governing sanctions and denials are found at subpart D of 15 CFR part 904.

(m) *Permit appeals.* Procedures for appeals of permit and administrative actions are specified in the relevant subparts of this part.

[61 FR 34572, July 2, 1996, as amended at 64 FR 22812, Apr. 28, 1999; 69 FR 8342, Feb. 24, 2004; 70 FR 29651, May 24, 2005; 71 FR 64476, Nov. 2, 2006]

§ 665.14 Reporting and recordkeeping.

(a) *Fishing record forms.* The operator of any fishing vessel subject to the requirements of §§ 665.21, 665.41, 665.61(a)(4), 665.81, or 665.602 must maintain on board the vessel an accurate and complete record of catch, effort, and other data on paper report forms provided by the Regional Administrator, or electronically as specified and approved by the Regional Administrator. All information specified by the Regional Administrator must be recorded on paper or electronically within 24 hours after the completion of each fishing day. The logbook information, reported on paper or electronically, for each day of the fishing trip must be signed and dated or otherwise authenticated by the vessel operator in the manner determined by the Regional Administrator, and be submitted or transmitted via an approved method as specified by the Regional Administrator, and as required by this paragraph (a). The operator of any vessel subject to the requirements of §§ 665.21, 665.41, 665.61(a)(4), or 665.81 must submit the original logbook information for each day of the fishing trip to the Re-

gional Administrator within 72 hours of each landing of management unit species, unless the fishing was authorized under a PRIA troll and handline permit, a PRIA crustaceans fishing permit, a PRIA bottomfish permit, or a PRIA precious corals fishing permit, in which case the original logbook form for each day of fishing within the PRIA EEZ waters must be submitted to the Regional Administrator within 30 days of each landing of management unit species. For fisheries managed under § 665.602, the original logbook information for each day of the fishing trip must be submitted to the Regional Administrator within 30 days of each landing of management unit species.

(b) *Transshipment logbooks.* Any person subject to the requirements of § 665.21(c) or § 665.602(a)(2) must maintain on board the vessel an accurate and complete NMFS transshipment logbook containing report forms provided by the Regional Administrator. All information specified on the forms must be recorded on the forms within 24 hours after the day of transshipment. Each form must be signed and dated by the receiving vessel operator. The original logbook for each day of transshipment activity must be submitted to the Regional Administrator within 72 hours of each landing of Pacific pelagic management unit species. The original logbook for each day of transshipment activity must be submitted to the Regional Administrator within 7 days of each landing of coral reef ecosystem MUS.

(c) *Sales report.* The operator of any fishing vessel subject to the requirements of § 665.41 must submit to the Regional Administrator, within 72 hours of offloading of crustaceans management unit species, an accurate and complete sales report on a form provided by the Regional Administrator. The form must be signed and dated by the fishing vessel operator.

(d) *Packing or weigh-out slips.* The operator of any fishing vessel subject to the requirements of § 665.41 must attach packing or weighout slips provided to the operator by the first-level buyer(s), unless the packing or weighout slips have not been provided in time by the buyer(s).
